Motivated Python Full Stack Developer with hands-on experience in designing, developing, and deploying end-to-end web applications. Proficient in back-end architecture using Python, Django, Django REST Framework (DRF), and MySQL, paired with front-end engineering using React.js, JavaScript, HTML5, CSS3, and Tailwind CSS. Adept at building robust RESTful APIs, optimizing database queries, and creating responsive user interfaces with solid OOP principles and Git version control.

## PROFESSIONAL EXPERIENCE

**Nivsee Technology Pvt. Ltd.** **August 2026 – Present**

***Python Full Stack Developer Intern***

- Developing and maintaining full-stack web applications using Python, Django, Django REST Framework (DRF), and React.js.
- Collaborating on building scalable RESTful APIs and integrating backend web services with responsive frontend UI components.
- Participating in database design and ORM query optimization to ensure high performance and reliable data flows.
- Utilizing Git and GitHub for code version control and collaborative software development.

## TECHNICAL PROJECTS

**Farm2Home – Full Stack E-Commerce Platform**

***Technologies:*** *Python, Django, Django REST Framework, React.js, MySQL, Tailwind CSS, Git*

- Architected and developed a full-stack e-commerce web application enabling direct transactions between agricultural producers and consumers.
- Designed and implemented secure, scalable RESTful APIs using DRF for real-time inventory tracking, user authentication, and order processing.
- Engineered responsive, highly interactive front-end components using React.js and Tailwind CSS, achieving seamless cross-device compatibility.
- Optimized database operations using MySQL and Django ORM, ensuring high performance for CRUD operations and complex product filtering logic.
- Integrated asynchronous data fetching via Axios and JSON payload handling between React components and API endpoints.

## EDUCATION
